

Library at the Dock, Melbourne - helping tackle climate change by storing 250 tonnes of carbon in its wood

# CITIES OF THE FUTURE

THE PROPERTY INDUSTRY'S MOVE TO MASS TIMBER CONSTRUCTION

**MAKE IT WOOD**

Do your world some good

**PLANET ARK**

Planet Ark's Make It Wood Seminar series  
[MakeItWood.org](http://MakeItWood.org)

**Thursday 12 November 2015**

8.30am - 4.30pm with post event networking drinks until 6pm

Library at the Dock

107 Victoria Harbour Promenade, Docklands VIC

Who is the seminar aimed at?

- Commercial property development managers
- Building investors
- Design and build industry
- People with a strong passion for timber

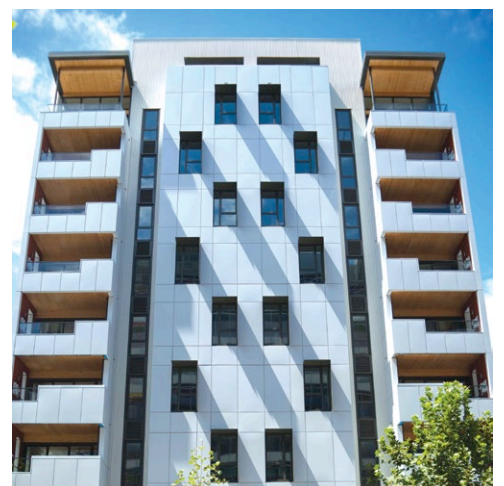

Come along and find out how mass engineered timber can be used in place of other building materials to build large commercial buildings and

- is cost competitive
- is quick to build with
- is renewable
- stores carbon helping to tackle climate change
- has proven health and wellbeing benefits

Limited spaces - First Come First Served.

**Register now for \$275 at [MakeItWood.org](http://MakeItWood.org)**

Forte, Melbourne - 10 storeys of cross laminated timber, built in 3 months with just 4 workers and a crane driver.

## Keynote speaker **Alex de Rijke**

Alex de Rijke is founding Director of the architectural practice dRMM whose work is well known for innovative construction technologies and materials. Alex's interests include laminated timber structures, architecture in relation to digital working methods, prefabricated and mobile architecture. He has taught and lectured around the world.

This event will accrue 4 sustainable development points within the Green Star CPD program
